Sabari Nathan

Front-End Developer

✉ sabarinagarajan07@gmail.com   📞 +91 877-839-7001   📍 Chennai, Tamil Nadu

Summary

Front-End Developer with nearly 3 years of experience building responsive and performant web applications. Specialized in Vue.js and Quasar, with additional hands-on experience in React.js and Tailwind CSS through personal projects. Skilled in API integration, performance optimization, clean code practices, and creating intuitive, component-based UIs aligned with modern UI/UX standards.

Work experience

Front-End Developer, *Zotworks Private Limited*   12/2022 – Present
                                                                        Chennai

- Developed responsive web applications using Vue.js, adhering to modern UI/UX standards.
- Created reusable, scalable components with Vuetify and Quasar frameworks.
- Integrated RESTful APIs to deliver dynamic data and improve interactivity.
- Utilized Team Foundation Server (TFS) for version control and agile task tracking.
- Collaborated with senior developers to enhance performance, architecture, and code quality.

Projects

Bank Loan Management System, *Projects at Zotworks*   01/2023 – Present

- Contributed to a high-performance banking application managing loan metrics such as LTV (Loan to Value) and CLTV (Combined Loan to Value).
- Built robust, scalable UI components using Vue 3 and the Quasar Framework with integrated APIs for real-time data.
- Utilized Vuex for state management and Axios for API communication.

Inspection Portal, *Projects at Zotworks*   01/2025 – 04/2025

- Developed a mobile-friendly inspection portal using Vue 3 and Vuetify.
- Implemented smooth navigation with Vue Router.
- Managed application state effectively using Pinia.

Portfolio Website (Personal Project) — Live Demo ⬈

- Built a responsive personal portfolio using React.js and Tailwind CSS.
- Showcases projects, skills, and contact details with smooth animations and accessibility features.
- Includes additional projects such as a YouTube Clone and Smart Study Scheduler, also built with React.js and Tailwind CSS.
