

Sabari Nathan

Front-End Developer

✉ sabarinagarajan07@gmail.com ☎ +91 877-839-7001 📍 Chennai, Tamil Nadu

Summary

Front-End Developer with **3.5+ years of experience** building **enterprise web applications** in the **financial domain**. Specializes in **Vue 3** with the **Composition API**, with a primary focus on a production **Loan Origination System (LOS)** supporting mortgage and lending workflows. Proficient in **JavaScript (ES6+)**, **Quasar**, **Vuetify**, **Vuex**, **Pinia**, **Axios**, and **REST APIs**. Experienced in **Agile/Scrum** environments with cross-functional teams

Work experience

Front-End Developer, Zotworks Private Limited - Develop and maintain enterprise-grade SPAs using Vue 3 (Composition API), Quasar, and Vuetify — powering complex financial workflows within a Loan Origination System (LOS). - Build reusable, responsive UI components following modern frontend best practices, ensuring consistency across financial application modules. - Integrate RESTful APIs via Axios; manage application state using Vuex and Pinia across large-scale financial modules. - Contribute to loan comparison, variance analysis, and borrower management features to improve operational efficiency within the LOS platform. - Improve application performance through component-level optimization, code refactoring, and lazy loading on data-heavy financial views. - Collaborate with QA engineers, business analysts, and backend teams in Agile/Scrum sprints to deliver reliable, production-quality releases.	12/2022 – Present Chennai
